★ JB's Web Services has transformed our school website from a site which simply supported those with an interest or potential interest in our school, to a quality proactive communication tool, catering creatively to the needs of parents, staff, students and the wider community. Jacinta provides a complete web site service to our school which ensures that our site is always up to date, simple to keep maintained and highly affordable.

Jacinta Bennet offered us a complete support and design package in relation to our school website. Jacinta 'knows schools' that is very clear! In dealing with Jacinta directly, we established an efficient and easy working relationship. She communicates openly, regularly and provides advice which reflects her lengthy experience in schools. She has designed and crafted our website to suit the unique needs of our school. She has provided a non nonsense procedure for adding, removing and updating web site content. Her processes and procedures are easy to follow and quick to implement ensuring updates are quick to appear on the site. Integrity, honesty and a dedicated approach are hallmarks of her company.

It is the affordable nature of the service JB's Web Services provides, that adds great value to the product provided. We here at Mary MacKillop school have been able to establish a website which is well used by many within the community in a very affordable way. Knowing costs up front and budgeting for them has been beneficial. Having attempted to manage the site locally I am now thoroughly convinced that using JB's Web Services is by far, the more affordable and efficient option. Jacinta's rates for schools are easily managed within the school budget and realistic for the great work she does. Feedback from parents and potential parents has been that the website is simply wonderful. I can honestly say that constant accolades are received from site visitors, which affirm that our website is effective and useful. This is in great part due to the skill of Jacinta in designing and crafting a product that is user friendly and specifically created to suit schools and the ever changing needs of students, staff and school families.

I wholeheartedly recommend the services of Jacinta Bennet and JB's Web Services as an affordable, efficient, easy to use web site process and package for schools. Our website is now managed efficiently and effectively and we can meet the needs of our community in more effective ways at amazing value for money. JB's Web Services have transformed our school's website and connected us with the World Wide Web in new and exciting ways.
